Introduction

In accordance with Australian Prudential Standard *APS 330 Public Disclosure* (APS 330), locally incorporated authorised deposit-taking institutions are required to disclose information on their risk profile, risk management, capital adequacy, capital instruments and remuneration practices so as to contribute to the transparency of financial markets and to enhance market discipline.

Capital management plan

Maitland Mutual Limited (The Mutual Bank) has a capital management plan which:

- sets out its strategy for maintaining adequate capital over time, including its capital target for providing a buffer against risks involved in The Mutual Bank's activities;
- details how that target will be met; and
- identifies the means available for sourcing additional capital when required.

Risk management plan

The Mutual Bank has a risk management plan which includes systems and procedures to identify, measure, monitor and manage the risks arising from its activities on a continuous basis to ensure that capital is held at a level consistent with its risk profile.

Basel III

In making its capital disclosures, The Mutual Bank is using the post 1 January 2018 common disclosure template (Table 1) because it is fully applying the Basel III regulatory adjustments as implemented by APRA.

		6,061,787	6,312,127

Table 18 **Remuneration**

Qualitative disclosures

The Remuneration and Nominations Committee (the Committee) is responsible for overseeing remuneration of senior managers and material risk takers. The Committee is composed of all current members of the Board of Directors.

The Committee's purpose is to assist the Board to fulfil its corporate governance responsibilities in regards to:

- Board and Board Committee appointments and inductions;
- Selection, appointment and succession planning of The Mutual Bank's Chief Executive Officer;
- Annual reviews of the performance of the full Board, its committees, individual Directors and Chief Executive Officer;
- Carrying out the responsibilities outlined in the Board Renewal Policy; and
- The remuneration of all persons whose actions could put The Mutual Bank's financial soundness at risk as defined in the Remuneration Policy.

During the year ended 30 June 2020, The Mutual Bank sought the advice of external consultants McGuirk Management Consultants Pty Ltd to provide Mutual ADI remuneration benchmarking data.

The Board regards the following positions as senior managers whose activities may affect the financial soundness of The Mutual Bank:

	Number employed
Chief Executive Officer	1
Chief Financial Officer	1
Chief Credit Officer	1
Chief Operations Officer	1
Chief Risk Officer	1
Information Systems Manager	1
Manager – Legal and Compliance	1
Compliance Manager	1
Manager – Lending & Compliance	1
Manager – Human Resources	1
Total senior managers	10

The objectives of The Mutual Bank's *Remuneration Policy* are

- To be compliant with APS 510
- To encourage behaviour that supports The Mutual Bank's long term financial soundness and risk management framework
- To motivate persons to manage and lead the business successfully and to drive strong long-term organisational growth in line with strategy, business objectives and the management of risk
- In relation to variable or performance-based components of remuneration, to encourage behaviour that supports The Mutual Bank's long term financial soundness and risk management framework
- To ensure that the structure for the remuneration of risk and financial control personnel, including performance based components if any, does not compromise the independence of these personnel in carrying out their functions
- To provide competitive and reasonable remuneration to attract and retain high calibre employees
- To ensure that the remuneration of staff is kept an affordable level based on a combination of the employee's performance, The Mutual Bank's ability to continue to operate as a going concern, and wider macroeconomic factors.

The Remuneration Policy is reviewed by the Board of Directors annually. Changes made during the past year include:

- Expanding the Salary at Risk Objectives to better align with CPS 510

The Board approves Strategic Plans and Business Plans (1 year and 3 years), identifying the Key Performance Indicators for The Mutual Bank. The Board assesses and articulates the key risks of The Mutual Bank annually or as required in its Risk Appetite Statement.

The Committee determines the Payments to Risk and Financial Control personnel (as defined in CPS 510). Payments for these personnel do not include a "salary at risk" component.

The Committee, in consultation with the Chief Executive Officer, determines the remuneration of senior managers based on their performance, direct accountability and responsibility for the operational risk management, strategic direction, leadership and decision-making for The Mutual Bank.

The Board of Directors determines the remuneration of the Chief Executive Officer and considers whether any change should be made to the base salary on an annual basis. The Board determines on an annual basis whether a "salary at risk" component will apply and the goals, key risk indicators or benchmarks to apply.

The Mutual Bank does not have a long-term incentive scheme. The Board Remuneration and Nomination Committee, considers the longer term performance of The Mutual Bank in determining remuneration for Senior Management.

There have not been any significant changes to the nature and type of performance measures over the year ended 30 June 2020.

Non-executive directors do not receive any variable or performance based remuneration.

Quantitative disclosures

The Remuneration and Nominations Committee met once during the year ended 30 June 2020 and the Board of Directors met twelve times. Members of the Remuneration and Nominations Committee do not receive additional remuneration for their involvement with the committee.

No senior managers received variable remuneration during the financial year.

No guaranteed bonuses were awarded during financial year.

No sign on awards were awarded during the financial year.

No senior manager retired during the year.

There is no outstanding deferred remuneration.

Total value of remuneration awards for senior managers	Unrestricted \$	Deferred \$
Fixed remuneration:		
Cash based	2,367,672	Nil
Shares and share-linked instruments	Nil	Nil
Other	Nil	Nil
Variable remuneration:		
Cash based	Nil	Nil
Shares and share-linked instruments	Nil	Nil
Other	Nil	Nil

The Mutual Bank does not issue any shares or share-linked instruments, so no persons have exposure to implicit or explicit adjustments in its share value.
